(ASSOCIATED PRESS TELEGRAM)

New York, December 11.—The
steamship San Juan of the New York
and Porto Rico line, was held up and
searched by a French cruiser while
the steamer was bound from New
Orleans to San Juan, Porto Rico, ac-
cording to a message received by the
line today. Two second-class pas-
sengers were removed. The San
Juan flies the American flag.The San Juan is the third vessel
of this line to have been held up
within the last five days, the Coamo
and Carolina having been searched
off Porto Rico this week. The pas-
sengers removed from the San Juan
were William Gunthorpe and
Fritsch Lobar, both said to be res-
idents of New Orleans. The San Ju-
an left New Orleans Saturday and
arrived at San Juan early today.A message from the San Juan to the
local office did not give the exact lo-
cation where the steamer was search-
ed nor the name of the French cruiser,
but it is believed that the San Ju-
an was searched late yesterday
and probably by the same cruiser
which held up the Coamo and Caro-
lina. The message also failed to
state whether the cruiser fired any
shots at the San Juan as was done
in the previous cases.Manager Mooney of the line said
he would not determine the question
of making a protest through the
state department until after Mon-
day and he obtains full reports of
the holding up of the Carolina and
Coamo from the ships' officers.
Mr. Mooney indicated that he did
not consider as serious the holding
up of the San Juan.RECORD BROKEN
IN 6-DAY RACE.

(ASSOCIATED PRESS TELEGRAM)

New York, December 11.—The
eleven surviving teams in the six-day
bicycle race had pedaled 2,508 miles
and seven laps at 8:00 o'clock this
morning, the 125th hour, bettering
the record made by Cameron and
Kaiser in 1914 by two miles and
three laps. Rider after rider started
springs during the early morning
hours, trying to gain a lap over the
field, but all attempts were futile.
After midnight the riders were about
twenty-three miles ahead of the re-
cord, but the pace slackened.Shortly after 6:30 a. m. Walthour
and Corry, in a sprint, collided and
both fell. They were not hurt and
lost practically no time.

(Via Radio to San Diego, Calif., Dec.
11.)—Yaqui Indians are now on the
warpath and are raiding the Ameri-
can settlement in the Yaqui Valley,
according to reports just received
from Guaymas. The Richardson
Construction company, which owns
approximately 1,000,000 acres in the
valley, has sent an appeal to the
American consulate at Guaymas
asking that protection be furnished
immediately as the American colony
is wholly without protection in the
valley where the Indians are reported
as raiding farms, driving off
stock, burning American harvests
and moving toward the experimental
station. No American casualties
have been reported.Five hundred Indian warriors en-
gaged Mexican troops for three
hours yesterday along the Porfirio
Diaz canal between Cocorit and Es-
peranza. The result of the encoun-
ter has not been learned.Indians attacked the garrison
protecting the Southern Pacific em-
ployees engaged in repairing the
bridge at Corral over the Yaqui river.
Fighting continued yesterday
afternoon and early today at that
point. The railroad officials have
sent an appeal to General Dignez
for greater protection in this dis-
trict, as has been promised.COAL SUPPLY

(ASSOCIATED PRESS TELEGRAM)

Zurich, Switzerland, Dec. 11.—
(Via London.)—Reports reaching
here from Austria say that the sup-
ply of coal in Vienna is so small that
the question of lighting the city has
become acute. The burgomaster has
appealed to the government to pro-
vide coal for the municipal gas
works, so that the capital may not be
left in darkness.The cities of Laibach and Styria, it
is reported, already are without gas
on account of the lack of coal.MUNITIONS PLANT

BY GERMANS

(ASSOCIATED PRESS TELEGRAM)

Kiev, Russia, December 11.—Via
Petrograd and London.—A report
reached here today that Lemberg is
being evacuated by the Austro-Ger-
man forces on account of an out-
break of disease. Owing to the spread
of the scourge, the military authori-
ties, according to the report, decided
on withdrawing with the view to
avoiding panic among the civilian
inhabitants of the city.This report has reached Kiev from
various sources and appears to be
corroborated by Austrian and Ger-
man prisoners. It is said also by
prisoners that the approaches to
Lemberg have not been fortified,
with the exception of repairs which
have been made to the old trenches.
On the other hand, the Grodek lakes
and the line of the river San are be-
ing fortified strongly and from
Przemysl to the Vistula, a series of
concrete fortifications is being con-
structed.2 EXPERIENCES
OF GREEK SHIP
WITH TORPEDOES

(ASSOCIATED PRESS TELEGRAM)

London, Dec. 11.—The crew of the
Greek steamer L. C. Goulardis,
whose destruction by a German sub-
marine was reported Thursday, had
two experiences on the same day
with torpedoes. According to an
official report forwarded from
Athens by Reuters correspondent,
the crew took to life boats after the
Goulardis, bound from Alexandria
to England, had been torpedoed
when 150 miles west of Alexandria.
The boats were towed for some dis-
tance by the submarine and then cast
adrift.The men were picked up by an
English steamship, which, when
within 25 miles of Alexandria, was
torpedoed by the same submarine
that had sunk the Goulardis. The
crew of both vessels escaped in small
boats and were picked up three miles
from Alexandria by another British
steamship, reaching port safely.

SOCIALIST

NEW CHARGES BY GERMAN
GOVERNMENTPolitical Utterances Got Him in
Trouble Before, and He was Put
Under Military Law.Paris, December 11.—The German
military authorities have begun
fresh proceedings against Dr.
Karl Liebknecht, socialist member
of the Reichstag, according to the
Humanite's correspondent on the
Swiss frontier. His prosecution,
however, requires the sanction of
the Reichstag.News dispatches last March stated
that Dr. Liebknecht, because of cer-
tain political utterances, had been
ordered to place himself at the dis-
posal of the German military authori-
ties, and thereafter he must consid-
er himself under military law. He
was not to write articles nor was he
to be permitted to attend public po-
litical meetings excepting the Reich-
stag and the Landtag. Later it was
announced that the constitutional
rights of members of the Reichstag
could not thus be abridged and that
the government had ordered a dis-
continuance of the military action.Recently news dispatches said So-
cialists members of the Reichstag
had repudiated by resolution the at-
titude of Dr. Liebknecht whose ques-
tions in the Reichstag regarding
peace have been the subject of much
discussion.

CELOR'S REMARKS IS DESIRE TO QUITParis News Papers Comment Upon
Address of Von Hollweg Before
the Reichstag.

(ASSOCIATED PRESS TELEGRAM)

Paris, Dec. 11.—Paris newspapers
express the opinion that behind the
outspoken remarks of Dr. Von Beth-
mann-Hollweg, German chancellor,
in his address to the Reichstag was
perceived a desire for peace."Germany's plan is evident," says
Gabriel Hanotaux, former foreign
minister, in the Figaro.
"While the chancellor rattles the
sabre and proclaims Germany's un-
diminished strength and determina-
tion to win, the socialists are put up
to feel the ground for peace propo-
sals, through their international con-
nections in neutral countries."The Matin asserts the chancellor,
notwithstanding his ability has failed
to hide the truth concerning Ger-
many's straits.
"The idea that Germany could
lack anything suggested astonishing
revelations to him," it says. "We
learn that our enemies have such
fabulous quantities of potatoes that
three quarters of them are used for
purposes other than food.""Naturally the situation in the
Balkans is exploited. The fraternity
in arms with the Bulgarians and
Turks is celebrated with deep emo-
tion, but that Dr. Von Bethmann-
Hollweg did not say is that Ger-
many's allies are becoming so expen-
sive to her that exchange with both
America and Switzerland is falling
against her daily appalling propo-
sitions."In the Petit Journal Stephen
Pichon, former foreign minister,
draws the conclusion from the chan-
cellor's speech that both sides are
equally determined to continue the
struggle.

TUBERCULOSIS

Chicago, December 11.—A victim
of tuberculosis, Charles Green, of
Toledo, Ohio, whose criminal record,
the police say, is international, is
under arrest here today, awaiting
return to Cleveland, where he is
wanted for having forfeited his bond
of \$24,000 last spring after his ar-
rest on a charge of robbing jewelry
firms of gems valued at \$17,000.Tolice of a score of cities and pri-
vate detective agencies have sought
him, but Green told the officers af-
ter his arrest here yesterday he has
spent the last year in a Chicago san-
itarium. Physicians say he will not
have more than a month.In 1907, Green was arrested in
London for the theft of \$38,000
worth of diamonds from a jeweler.
He took passage on a liner and was
located by wireless and arrested at
sea. The gems were found behind
a loose panel in Green's stateroom.
He served five years for the theft.

BANDITS

IN MONGOLIA HAVE BEEN GIV-
ING CHINESE AUTHORITIES
TROUBLE.This, However, Has Been Always the
Case With the Approach of the
Winter Season.Peking, Nov. 13.—Bandits are giv-
ing the Chinese government much
trouble in Mongolia, in Yunnan
province, near the Sino-French fron-
tier, and in Wschueu province,
near the Tibetan border. With the
approach of winter, bandits always
become more active in the outlying
provinces, as it is then much more
difficult to send soldiers to sup-
press their operations. However,
this year the activities of the out-
laws seems far greater than usual.
This is due in part, no doubt, to the
fact that great attention is paid to
brigandage by the enemies of the
monarchical movement, who point
to as proof of the public's disap-
proval of the abandonment of the repub-
lic.In inner Mongolia, the Hungtutzes
or outlaws have been threatening the
collection stations of the salt mo-
nopoly and the government has sent
2000 troops to Kalgan, Jehol, Dolon-
Nor, and Chin Peng to suppress the
brigands. President Yuan Shi Kai
has also appointed the Manchou gen-
eral, Kun Yuan, formerly Tartar
general of Jehol, to take command of
another eight battalions of troops
who will devote all their time to sup-
pression of bandits.

GREECE STILL A PROBLEM

Diplomatic Negotiations
Seem No Nearer a Settle-
ment Than They Have
Been Heretofore—Saloni-
ki Retained As a Base
for Future Operations of
French and British.London, Dec. 11.—The latest news
from the Balkans indicates that the
allies are still falling back but with-
out suffering the losses endured on
the first five days of the retreat
when the pursuing Bulgarians at-
tacked rear guards repeatedly. Paris
reports that in these actions the
French suffered heavy losses on the
pursuers by their artillery fire.The British public received a
shock in the form of a Saloniki dis-
patch stating that Gievski had been
occupied by two divisions of German
troops. Later reports, however,
state that this important position is
not yet within the range of the in-
vaders guns. Gievski is on the
Greek frontier near the Vardar river
and commands the railroad north
from Saloniki. The town first came
into prominence during the present
war as headquarters of the typhus
hospital of Dr. James Donnelly of
New York, who died in Nish in Feb-
ruary.The diplomatic negotiations with
Greece seem no nearer settlement
although the retreat of the allied
troops make some definite reply from
Athens hourly more vital. In mili-
tary circles it is considered of pri-
mary importance that Saloniki be
retained as a base of future opera-
tions, even though the allied troops
are forced to take refuge under the
guns of the fleet. It is generally
conceded the present force of the
allies are inadequate to cope with
Bulgaria and the central powers
whose armies, according to a state-
ment credited to Premier Radosla-
voff of Bulgaria now number 1,000-
000 men.The final day for recruiting under
the plan of the Earl of Derby finds
no diminution in the crowds which
besieged the recruiting stations. In
the rush medical examination has
become as perfunctory as the sign-
ing of the recruits name and it is
expected many of those who have
come forward will be rejected when
called for active service.CHARGES ARE

—The French and British armies
continue to fall back before the Bul-

ber of additional positions formerly
held by the allied troops. The fol-
lowing report of these operations
was issued at the war office here

which include unneutral utterances.

ing in Africa, has been sent to Cairo
to investigate. In maintaining dip-
lomatic relations with the British au-

TO ENLIST IN
ENGLISH ARMY.

(ASSOCIATED PRESS TELEGRAM)

London, Dec. 11.—There was an
unprecedented rush this morning at
the recruiting station. Physicians
and clerks, nearly exhausted by the
work of the last three days, were
confronted on arrival at their posts
this morning with long lines of men,
in many cases several hundred daily
waiting for the opening of the doors.
To handle the crowds, the staffs at
the recruiting stations have been in-
creased. Enrolment under the Earl
of Derby's plan ends at midnight.
The crowds became so great that
it was manifestly a physical impos-
sibility to examine all the applicants
before midnight. The authorities
therefore decided to permit attesta-
tion under the Derby plan until mid-
night of Sunday. If the rush still
continues recruiting officers will
make lists of applicants and these
men will be permitted to present
themselves for attestation up to mid-
night of Wednesday.

Chilcoat real estate in Newark and that she reserved a life estate and occupied it jointly with defendant up until about a year before her death; that defendant procured the deed and placed it upon record after its execution contrary to the understanding between parties to same, to secure defendant, Wm. H. Chilcoat in the sum of \$1000 which he claimed Anna Chilcoat owed him; that defendant procured the conveyance for the purpose of claiming the real estate as his own after the death of the said Anna Chilcoat, and that the said real estate is worth \$10,000. Plaintiff claims that Anna Chilcoat was unduly influenced by defendant and he prays that the deed be set aside, and if good at all, be declared a mortgage for the sum due defendant.

WAGON UPSET; "VICK" SCHRUMM BADLY INJURED

When a wagon in which he was riding overturned on Cedar Hill cemetery this morning about 9 o'clock, Vick Schrumm, well known German citizen, suffered a fracture of the leg near the hip joint. After the wagon upset, the horses ran a short distance but were stopped before any further damage was done.

The Barker ambulance and Dr. J. P. H. Stedem were called and the injured man was removed to the Newark Sanitarium where the fracture was reduced. Schrumm is about 50 years old.

Schrumm, with Clyde Glover, regular driver for James McGonagle funeral director, went to the cemetery this morning to place a vault in a grave for a funeral this afternoon. After the work was finished they climbed into the wagon to return to the city. It was then that the wagon overturned.

VILLAGES NEED NOT OFFER TO BUY UTILITIES

Before Erecting Municipal Plant in Competition, Says Supreme Court Decision.

(ASSOCIATED PRESS TELEGRAM) Columbus, Dec. 11.—Supreme court today declared invalid the statute which provides that a village must offer to buy an existing privately owned gas or electric plant before erecting a municipal plant to compete. The home rule amendment adopted in 1912, applying to municipalities, repeals by inference the old statute, the court held.

The decision was given in a case involving erection of a gas and electric plant at Orrville, where the Massillon Electric and Gas company already had a plant. The private company stopped construction of the municipal plant by court procedure and later the Dravo-Doyle company sued the village for collection on equipment which had been supplied for the municipal plant. This case reached the supreme court and was decided in favor of the Dravo-Doyle company. The court's action is considered a victory for the municipality however. The supreme court's action is a reversal of the Wayne county court's judgment.

Efforts were made during the last session of the legislature to repeal the old law requiring purchase of existing gas or electric plants in a village before construction of a municipal plant, but the proposed measure was killed.

The supreme court laid down the rule that if an adopted child is killed, the parents by adoption may recover judgment for the child's death and the actual parents are not entitled to any claim. This decision was given in the case of Mary Kinsman against the New York, Chicago and St. Louis railway, brought up from Ashtabula county courts.

A new trial was ordered for the action of the city of Cincinnati against the Cincinnati, Lebanon and Northwestern railway company, to recover the railway company's share of the cost of expense in the grade crossing elimination project in Cincinnati. The disputed point in the case was whether the city had a claim on the company, when no formal notice had been given the company of the proposed improvements.

The court of appeals' judgment ordering a new trial was affirmed by the high court.

STOCK RAISING FIGURES GIVEN BY MONTGOMERY

(By Cary W. Montgomery.)
Last week I gave you the results of a study of 17 farms in Geauga County, Ohio, showing that the receipts from some dairy animals were very much greater than from others, but that the cost of keep for the low receipt animals was as much or more than for the high receipt animals. In this connection I wish to call attention to the cost of raising calves.

In Wisconsin investigators from the U. S. Department of Agriculture kept records of the cost of raising 117 Jersey calves and found that it cost \$61.31 to raise a calf to two years old, 12.5 per cent of which was for labor, 25.5 per cent for feed and 22 per cent for other costs.

At the Ohio Experiment station some records of the cost of raising Jersey and Holstein calves have been kept with the following results: To raise a calf to one year old, the total cost for Jerseys was \$42.54, feed cost \$27.75. For Holsteins, total cost \$44.10, feed cost \$29.31. The average total cost to raise these calves to two years old was for Jerseys \$78.19, Holsteins \$81.80.

From these figures farmers can certainly recognize the very great value of knowing when the calf is dropped if it will be a good producer or not.

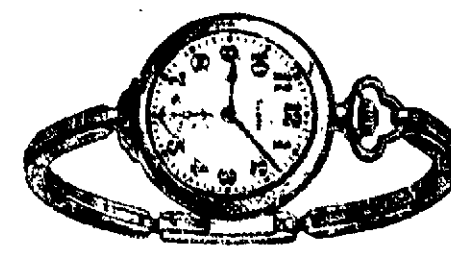

The details of these experiments together with some good suggestions as to the care and feeding of the calf, can be obtained by sending to the Experiment Station, Wooster, Ohio for Bulletin 289 recently published.

The Mission of the Christ Child.
Wondrous indeed was the mission of the Christ Child. He gave himself to the world on the first Christmas day, and with him came every other good gift. This is what is typified by every Christmas tree and every gift it bears, by every bulging little stocking that hangs in the chimney corner, by every wreath of holly, by every greeting and merry wish. And this spirit, oh how much it is needed on the 24th of December and on the 26th, as well as the 25th, and on every day of the round year as well. "Not to be ministered unto, but to minister"—this motto lived out on every day of the year would dispel the sorrows of the world, smooth out its wrinkles, abolish its poverty, soothe its pain, comfort its heartaches, heal its diseases, make it a heaven.—Rev. Dr. Francis E. Clark.

CHRISTMAS MAIL DELIVERY; P. M. ISSUES ORDERS

Postmaster F. T. Mercer today issued to the public a number of instructions with regard to the mailing of Christmas parcels, and letters. The custom of leaving everything until the last minute reduces the service of the postoffice to the minimum, and to avoid this Mr. Mercer has given out the following statements:

All Christmas parcels should be securely wrapped and tied with good strong cord. The department is now insuring all parcels so that in case of loss you may be reimbursed the fee for all parcels up to value of \$5.00, is only 3 cents. For larger amounts the fee increases in harmony with this value.

It is allowed to place on outside of parcel the words "not to be opened until Christmas." If you mail your parcels several days before Christmas you will be sure of their reaching their destination before that day and they will arrive in better condition as early mailing will lessen the congestion of the mails. If all mail, whether first class circulars of parcels, are mailed in the first half of the day it will aid us very materially in giving you good service. See that your return card appears on all mail of all classes then you can be sure that it has been or will be delivered or returned to you or you will be notified of its non-delivery. It is much easier for the clerk to send your mail forward promptly if it is mailed early in the day. We earnestly ask the co-operation of all patrons of the office in giving the very best service possible, which we cannot do if you all wait until the evening hour to mail your letters and parcels.

Those mailing large amounts of first class mail or circulars can assist very materially if they will facsimile matter one way and by using suitable packages with rubber bands or stout cord and in cases of very large amounts by using sacks to bring it to the office.

We repeat that all parcels should be wrapped in strong paper, tied with strong cord, return address thereupon and mailed early in the month and at an early hour in the day.

F. T. MERCER,
Postmaster.

SAFE CONDUCT FOR BOY-ED AND VON PAPAN ASKED

(ASSOCIATED PRESS TELEGRAM) Washington, Dec. 11.—Secretary Lansing will immediately ask Great Britain and France, through their embassies here for safe conduct for Captains Boy-Ed and von Papan, naval and military attaches of the German embassy here, pursuant to the request of Emperor William, who personally recalled the officers. Withdrawal of the attaches had been requested because of their alleged activities which rendered them persona non grata to the American government.

Official announcement of Emperor William's action was made by Secretary Lansing, after receiving a communication from the German foreign office through Count von Bernstorff, the German ambassador. There was some speculation here today as to whether Great Britain and France would, in event the two German attaches leave this country demand that they go under parole, pledging themselves not to participate in the European war. In some quarters it was thought that such a demand might be made.

A semi-official announcement issued this afternoon indicates that the French and British troops are being withdrawn from Serbia.

NEW FACTS

AS TO ABRAHAM LINCOLN
BROUGHT OUT IN ADDRESS
LAST NIGHT.Correspondent Gives Contents of a
Letter President Wrote Upon
Missouri's Government.

Columbia, Mo., Dec. 11.—New material on the life of Abraham Lincoln was brought out last night in an address before the State Historical Society of Missouri by Walter B. Stevens of St. Louis, former Washington correspondent of the St. Louis Globe-Democrat, and later secretary of the Louisiana Purchase exposition.

Mr. Stevens' theme was "Lincoln and Missouri," and he made public, possibly for the first time, a letter which President Lincoln sent to General Steele, whose military district included the state of Arkansas. The letter is dated January 20, 1864, and, said Mr. Stevens in his address, "is an answer to the historical controversy as to the course Mr. Lincoln would have pursued had he lived out his second term."

The original of the letter is now in the collection of W. K. Bixby of St. Louis.

"In his letter," said Mr. Stevens, "the president authorized the organization of a state government by an election on the condition that it be assumed at said election, and thenceforward, that the constitution and laws of the state, as before the rebellion, are in full force, excepting that there shall be neither slavery nor involuntary servitude, except in the punishment of crime whereof the party shall have been duly convicted; but the general assembly may make such provision for the freed people as shall recognize and declare their permanent freedom, provide for their education, and which may yet be consistent, as a temporary arrangement, with their present condition as a laboring, landless and homeless class."

"The language as to freedom," said Mr. Stevens, "is the same as was incorporated in the 13th amendment to the constitution of the United States nearly two years after this letter was written by Mr. Lincoln. General Steele was ordered to proceed with the election, allowing all to vote who would take the oath of allegiance prescribed in the president's proclamation of December 8, 1863. Polls were to be opened and the election on this change in the constitution and for governor was to be conducted in accordance with the laws of Arkansas. General Steele was instructed to have the votes counted and to recognize the new governor and to declare the constitution as amended in full effect."

"In his own words, written by himself, the president expressed his purpose to make the way for the Confederate states to get back into the Union simple and expeditious. Nothing was said about negro suffrage. Mr. Lincoln pledged himself to accept any provisions which may be adopted by such state government in relation to the freed people of such state which shall recognize and declare their permanent freedom provide for their education, and which may yet be consistent as a temporary arrangement with their present condition as a laboring landless and homeless class."

"The address of Mr. Stevens last night began with the conference between Lincoln and Francis Pickens of St. Louis, at Springfield, Ill., in April, 1861, and closed with the message Lincoln sent through Blair to General Joseph C. Shelby and the Missouri Confederates, a few weeks before the surrender of Lee. In the letter to General Shelby, said Mr. Stevens, Lincoln offered the aid of the Federal government to the Confederates west of the Mississippi river to march to Mexico and join Juarez who was fighting the French under Maximilian."

"The relationship between Lincoln and Missouri was continuous from the conference with Blair in 1861 to the message sent Shelby in 1865," said Mr. Stevens. "It was intimate. It had a deciding influence upon national politics. It had no small part in the fortunes of the civil war."

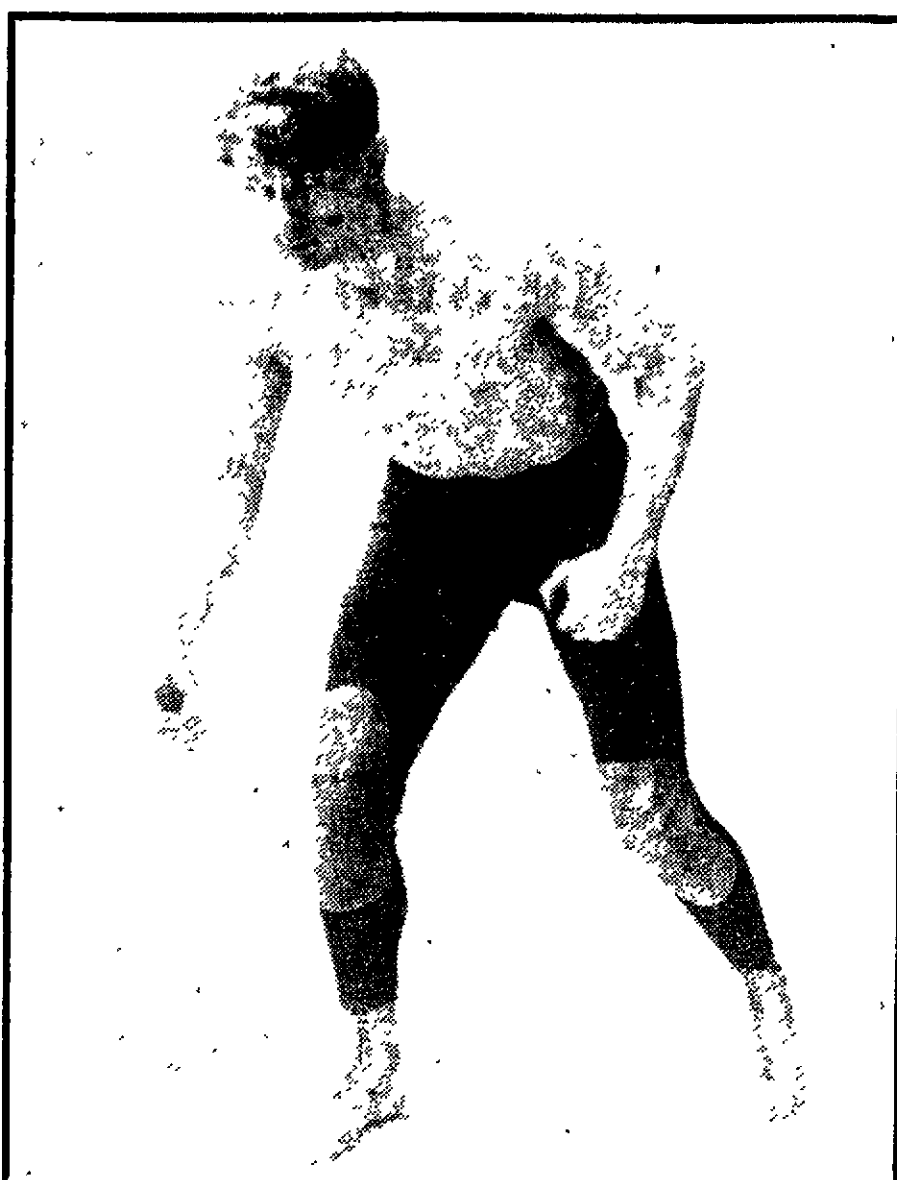

"In the spring of 1860 came fruition of the Lincoln and Missouri relationship. Following at once upon the defeat of Lincoln in 1858 for the senatorship, the organization to control the presidential nomination was started. Into the movement entered a personality not publicly conspicuous at the time but of great force under cover."

"Blair and the younger men were in the forefront carrying the banners of free soil, free democracy, gradual emancipation, white labor, colonization and the like."

"In the background was Edward Bates, counseling and encouraging. He had seen the Whig party go to pieces. He was in sympathy with the work of new party construction which Lincoln was doing in Illinois. He was not openly active in the Lincoln movement. He was the wise adviser. When the time came to send a delegation from Missouri to the Republican nominating convention at Chicago, Mr. Blair permitted his name to be used as the ostensible candidate of his state."

"The delegation went, instructed for him, but, as Mr. Bates afterwards explained, this was not with the expectation or his or the delegation's part that he would be nominated. The well-understood purpose was to hold the delegation intact against an eastern candidate. Lincoln was the choice of the Missourians and the vote was to be given him when it would do the most good. The border states plan, which Blair and the other gradual emancipationists had been organizing, was not to be revealed by publicly committing Missouri to Lincoln."

"Frank Blair made trips to Springfield, Ill., between the election in November and the departure of Lincoln for Washington in February. He kept the president-elect informed of every step in that game that was go-

ing on for the possession of the St. Louis arsenal with its 60,000 muskets and munitions of war, more than there was in all of the other slave states. He told Mr. Lincoln that if the Southern rights administration of Missouri gained control of the arsenal and its contents the state would be carried into the Confederacy and with Missouri the other border states would be lost.

THIELE IS ONLY
VETERAN PLAYER
ON DENISON FIVE

Granville, Dec. 11.—Here it is the dawn of the 16th basket ball season of the Ohio conference and last year's leaders are weighing all the cause each and every one of them has lost from three to four veterans. Life is just one tear after another for them. Let us pause and pass around the biers.

Buried there are Jones, Reese, Roubush and Duggs of last year's Denison champs; here is Graf, Godfrey and Cherry of Ohio State; under the green patch there are Little, Gates and Lynch of Wesleyan that boulder marks the resting place of McReynolds and ex-Captain Schaeffer of Ohio University. Over there behold Edwards and Curtis of Oberlin.

Denison, Ohio State, Oberlin, Wesleyan and Ohio University appear to have the best chances for success in the coming campaign. They are just about as near equal as a half dollar and fifty cents. Since there is much green material, it is hard to forecast which team will have the advantage. Time will tell. However, it seems highly probable that these five quintets have more promise than any others in the conference.

Captain Livingston will be called upon to defend Denison's title with only Thiele, center, as a nucleus. The title has rested at Granville for the past three years, and if it is wrested from the central Ohio village this year, it will not be astonishing. Neither will it be surprising if it stays there another year. Forwards Lang and Shorney, Guards Ladd, Jenkins, and Meredith are gradually being molded together to try for another title.

ESTABLISHED IN 1892

Entered as Second Class Matter
March 10, 1892, at the Postoffice at
Newark, Ohio, under Act of March 3,
1879.

A frivolous paraphrase remarks that Mr. Edison's concrete furniture will be difficult to abstract.

It is reported that a perfectly honest man has been found in Chicago, but the name of the cemetery is not given.

Luther Burbank may have been able to produce a stoneless prune, but can he produce a prunelless boarding house?

A New York paper uses the headline "Rockefeller Out of Oil." At present prices many housekeepers are also out of it.

Radcliffe college girls are to play baseball, which disposes of the idea that women are not capable of the classical education.

Bread in many places is now sold by weight. Mrs. Newly Wed should be able to make a big profit by selling some of her muffins.

It is said that children are very credulous, but one has difficulty in persuading a boy that thoroughness will do him a lot of good.

Observing some one printing a notice in an exchange for a lost umbrella, why should any one doubt any longer the power of advertising?

One way of getting your name in the paper was taken by a Philadelphia citizen who reported to the gas company that his meter was running too slow.

Tearful parents who fear their boys will never get on the college varsity team may be consoled by the chance of getting some consolation prize like the class valedictory.

It costs \$25,000 a year to hire a flat in some New York apartment houses. If any readers have any garments they would like to donate to the worthy poor, this newspaper will forward them to these people who are suffering from high living costs.

Early Rising and Daylight Saving.

Millions of people in Europe today have adopted new hours for work, play and sleep. On account of the menace of Zeppelin raids, and the necessity of darkening streets, they go to bed early and are up correspondingly soon in the morning. The new schedule of time is popular and may prove permanent after the war.

The idea of daylight saving by setting ahead the clocks or other plans to conform more nearly to the hours of the sun, has been much discussed in this country. The wide prevalence of eye troubles is due largely to artificial light. The fresh air of morning have their own charm, and they invite to vigorous effort.

Take a date when the sun is rising about 6:00 a. m. and setting at 5:30 p. m. The man who lies in bed until 7:00 o'clock is missing at least an hour and a half of daylight. Looking at it from the economical viewpoint, he is burning electricity.

Daily History Class—Dec. 11.

1861—Terrible fire broke out in Charleston, which was under rigid blockade by Federal gunboats; loss \$7,000,000 to \$10,000,000.

1914—The French government returned from Bordeaux to Paris after three months' absence.

\$363,800,000 for National Defense.

(New York World.)

The estimates of expenditure submitted to Congress for the next fiscal year call for approximately \$152,300,000 for the army and \$211,500,000 for the navy. This total for both services of \$363,800,000 exceeds the recent appropriations by \$121,000,000.

There are two elements in Congress lying in wait to strike at such a measure of national defense as these figures represent. They are the element opposed to any increase at all and the element that will antagonize it as utterly inadequate. Of the two the latter element is the more vociferous and the more dangerous.

If these plans are carried through the United States next year will be spending on army and navy more than Britain was spending for the same services, including an enormous navy before the present war.

To support these plans new taxes yielding well over \$100,000,000 a year must be levied. As the element in Congress which is crying down these plans for what it would call their disgusting moderation looks to a higher tariff for most of the new revenue, we call attention to the fact that the best total revenue of the highest tariff this country ever had was the \$333,600,000 raised from the Dingley tariff in the fiscal year 1910, which would have fallen over \$30,000,000 short of meeting the costs of the Administration's preparedness plan next year.

It is going to be no easy matter to induce Congress to appropriate \$363,800,000 for military purposes, and the people who clamor for more run the risk of depriving the country of any increase whatever in national defense. They are the strongest allies of the no-preparedness advocates.

Chicago Hits Union Grafters.

(Brooklyn Eagle.)

Fifty-four walking delegates or "business agents" of building trades unions in Chicago have been indicted for conspiracy and extortion, and the movement to extirpate this outrageous misuse of labor organizations seems sincere and sincerely indignant. Against each individual there are said to be 634 counts, and on each count an imprisonment of 10 years is possible. The bill for each man may be fixed at \$195,000.

The State Attorney declares that the city was distracted under nine "razors," each of these blacklisting whom he pleased to blacklist, and being backed up by clerks, painters, plumbers and all union labor employed in putting up or equipping new houses. Many builders paid blackmail. Many others refused to pay and were driven out of business or bankrupted. This desire to make punishment severe and sure is understandable. It has, we are sure, the full sympathy of law-abiding persons in Chicago.

The building trade is peculiar in that the industry required more of the industry of the victor. Manufacturer of shoes or hats can move his factory to another town or across the State. Hence local unions are able to hold a club over builders and contractors all the time. Here in New York there has been peace for many years, but peace at a price that checks building. Contractors yield to workers, and what is yielded to the cost of construction. That also has its disadvantages to the community.

Germany's Need.

(Philadelphia Record.)

If Germany could obtain what her statesmen call the "freedom of the seas," she might be able to endure the deadlock on the various military fronts indefinitely. Even a partial lift of the British embargo, to the extent that trade between Germany and neutral countries through Scandinavian and other neutral ports would become possible, would answer the purpose. The lands and people between the Yser and the Tigris might become a self-central economic world, and, with some access to the markets of the American continent, bearable conditions might eventually be attained. Continued friendly relations with the United States, however, would be essential to the realization of such conditions.

The Government of the United States is contending for the freedom of neutral commerce, which Germany needs in order to be saved from economic asphyxiation. It may be taken for granted, therefore, that the Foreign Office in the Wilhelmstrasse will not permit a breach in the amicable relations with this Government. If it cannot save its face, it will yield without doing so in the matter of the two attaches or any other matter.

Rippling Rhymes

The king was riding slowly, reviewing his troops, when, with a zeal unholly, the band sent up some whoops. The seed was much frightened, the king was scared, and landed on his head he skidded, and landed on the grass. And operators thrilled: the dreadful things hurled, by wires and by wireless, all o'er a breathless world. To Greenland's icy mountains the dreadful message flew, by Africa's sunny fountains the sweating heathen knew. By many an ancient river, on many a palmy plain, the news made people shiver, and filled their soul with pain. And as their fire grew hotter, we hear the nations sing, "Oh, let us lynch the charger that buckled and threw a king!" Know all men by those signs, that day ten thousand peasants were shot and killed like swine. Yea, while that worst of horses indulged in leap and bound, ten thousand nameless corpses were piled upon the ground. They lay beside their rifles, all stained with blood and dirt, but who can heed such trifles when royalty gets hurt?

Dr. O. P. Sook met with an accident last night that might have been serious as well as disastrous in its results. He was driving along North Third street, accompanied by Mr. Edward Parnell, the well known real estate man, when he collided with a hay wagon on the wrong side of the street. The buggy was overturned, and the occupants thrown out, the doctor receiving painful injuries about the hip.

Which do you consider the unluckiest day of the week on which to get married? ventured Miss Oldgirl.
"All of them," replied Mr. Oldbath.

Dry.

Paw Knows Everything.
Willie—Paw, is love blind?
Paw—It is for awhile, my son. But it always opens its eyes after marriage.
Maw—Willie, you leave the table and go to bed without your supper.

Tough.
"The oyster is a modest cuss; He never brags, so is her hair; He never makes a bit of fuss, And yet he winds up in the soup."

Huh!
"Please, ma'am, could you help a poor man who can't find employment?" whined the hobo.

"Here is a dime, my good man," said the sympathetic old lady. "What kind of work do you do?"
"I mow lawns in winter and shovel snow in summer," replied the hobo.

Sad!
The bill collector said: "Oh, my! All other men we're shunned by; They put us off and seem to try To do those they are dunned by."

The Wise Fool.
"What, in your estimation, is the most useless thing in the world?" asked the sage.
"The Mexican electoral college," replied the fool.

OPERA BAG

FOR PRESIDENT'S FIANCEE HAS JUST BEEN FINISHED BY CANTON WOMAN

Who Learned the Art of Making the Most Delicate Lace in a German Convent.

(ASSOCIATED PRESS TELEGRAM)
Canton, O., Dec. 11.—Mrs. Emma Lehr, who learned to make the most delicate of lace in a convent in Germany, when a small child, and who recently completed a lace collar for the Kaiserine, has just finished an opera bag for Mrs. Norman Galt, fiancée of President Wilson. It is turquoise blue velvet and is covered with a similar colored silk lace network of fillet, which is Mrs. Lehr's own handwork. In silver thread on this network is the American coat of arms surrounded by the monogram "W" while on the reverse side the reproduction of a golden red blossom. The bag which has an interior of lavender satin has three compartments—for opera glasses, fan and puff. In color it corresponds with her five sons and will be sent at once to Washington. Mrs. Lehr also is planning to make bags of similar design but different colors for Mrs. W. G. McAdoo and Miss Margaret Wilson, daughters of the president. Mrs. McAdoo's will be of cream colored velvet with white net and embossed in gold thread. Miss Wilson's will be of dark green velvet with orange net.

Society

The annual business meeting of the Coterie club will be held in the director's room of the "Home Building Association," Friday, Dec. 17, at 2:30 p. m. All members urged to be present.

A very pleasant time was had Thursday evening at the home of Mr. and Mrs. C. D. Hughes at Vanat, when they celebrated the 81st birthday anniversary of the former's mother, Mrs. Hughes, who is in feeble health, enjoyed the evening very much with her five sons and their families. After partaking of a delicious oyster supper, the guests departed, wishing Mrs. Hughes a very happy year.

A real surprise was given Mrs. W. E. Shrontz at her home in West Church street on Friday evening, by eight of her former neighbors in Linden avenue. The hours were devoted to needlework and a dainty luncheon was served, after an enjoyable informal evening.

The guests were Mesdames Kerr, Mendenhall, Kidd, Scott, Robinson, Serafford, Fluhart, Rouse, and Miss Beatrice Scott.

The pupils of the St. Francis de Sales Music school, entertained with a delightful musicale at the High School auditorium on Friday evening. The pupils are instructed by the Dominican Sisters at the Convent in Granville street, and the program arranged under their direction was varied and admirably rendered.

The program was extended one including chorus numbers, piano and violin solos and orchestra numbers, and bespoke the excellent training of the students.

In Milady's Boudoir

By Gwen Sears
If you are having trouble with your stomach and your skin shows positive proof of it, practice the following exercises: Raise your arms above your head, putting the finger tips together and then bend the body back, inhaling deeply meanwhile; straightening up and then bend forward from the waist without flexing the knees, lowering the arms at the same time, but still keeping the finger tips together, until you can touch the floor. Exhale as you bend forward.

Repeat this exercise as many times morning and night as the endurance of your muscles will permit.

Fruit phosphates should have their place in your diet because of their salutary action upon the circulation and the nerves. Oranges, of course, must not be forgotten and lemons are invaluable for the liver.

Pineapple, the juice, not the pulp, has very strong antiseptic virtues; it will digest food as well, almost, as the gastric juice in your own stomach, and is claimed for it that it will even banish moth patches. You need never fear indigestion if you will keep pineapples on your daily menu.

Many fruits, mixed in the right proportions, will entirely do away with a bad breath.

Your Boys and Girls

Home should be a place of caring and sharing. There are many homes however, which are little more than nurseries; houses in which all serious and important adult thought, conversation, speculation, and mutual adult service to the world are rendered practically impossible by the overwhelming preponderance of the child's demand on the attention.

A real home is not a place of mere material comfort. The child's own relation to the home is an entirely spiritual thing. Here is all ideal government, a republic to which it is his privilege to be devoted and loyal. Here, with the other members of that home, he shall be equal in his rights and equal only.

Explanations of Diplomat Made to Secretary Lansing

(ASSOCIATED PRESS TELEGRAM)

The charge was understood to have informed Secretary Lansing that at the time the letter was written he was subordinate in the embassy. Dr. Constantin Dumba, the ambassador who has been recalled was then in charge and it is said that Baron Zwiadine had contended that he was acting not upon his own initiative but under the instructions of the ambassador.

SORRELL

SENTENCED TO MANSFIELD TODAY ON A MANSLAUGHTER CHARGE

Indicted for Participation in the Shooting of Patrolman Walter Boscowan Last July.

Wilbur Sorrell was sentenced to an indeterminate sentence at the Mansfield reformatory today by Judge T. B. Fulton of the court of common pleas after Sorrell had changed his plea of not guilty to guilty of manslaughter.

Sorrell, who is twenty-four years of age, was indicted jointly with Charles Athey and David Stiffen for the shooting of Patrolman Walter Boscowan last July, while the three men were effecting an entrance to the Wyeth-Scott office at their cement works along the B. & O. tracks in North Newark.

Sorrell was taken into custody a few days after the shooting and made a full confession of the crime, implicating his two companions. He made the confession to Prosecutor J. W. Horner and that official in court today stated that the prisoner was not promised clemency, but made the confession voluntarily. The prisoner's attorney, James F. Ling, after, made a plea to the court and the latter took under consideration the prisoner's assistance in convicting his two companions and sentenced Sorrell to the reformatory at Mansfield, where he was taken this afternoon by Deputy Sheriff Frank Brown. His stay at that institution will depend upon his conduct and general demeanor, and if he proves a model prisoner, he will be paroled in the course of time.

Christmas Gifts

What can I give him,
Poor as I am?
If I were a shepherd
I would bring a lamb.
If I were a wise man
I would do my part;
Yet what I can I give him—
Give my heart.
—Christina Rossetti.

Christmas gifts for thee,
Grand and free!
Christmas gifts from the King of Love,
Brought from his royal home above,
Brought to thee in the faroff land,
Brought to thee by his own dear hand.
Promises held by Christ for thee,
Peace as a river flowing free,
Joy that in his own joy must live
And love that infinite love can give.
Surely thy heart of hearts uplifts
Carols of praise for such Christmas gifts.
—Francis Ridley Havergal.

Mechanical Toys Are Not New.
In all ages of the world's history children have loved toys. History records the fact that figures of animals, such as horses, goats and dogs, were found among the toys made of pottery years before the Christian era. Even the mechanical toy is not a new invention, for in ancient Greece, where moving statuary astonished or amused both rich and poor, there was scarcely an Athenian house which did not possess a mechanical toy of some sort.

(ASSOCIATED PRESS TELEGRAM)
Washington, December 11.—Further action on a senate resolution demanding congressional investigation of British interference with American trade with an amendment to extend the inquiry to cover bomb plots and loss of American lives in submarine attacks on vessels on the high seas rested today with the foreign relations committee.

The resolution proposed yesterday by Senator Hoke Smith of Georgia, who in a sharp speech denounced the British order in council, drew the amendment from Senator Lodge. In offering his amendment, the Massachusetts senator said:
"I think it is of great importance that we vindicate our rights as a neutral trade, but I think it far more important that we should extend protection to American citizens."

Th' bashful pianist an' th' Victrola are sworn enemies o' th' drawin' room. "I'll be glad when winter comes 'cause their haint no many jobs floatin' around," said Stew Nugent, our leadin' pool player.

"The Bible tells us we should love our neighbors," said the good deacon. "Yes; but the Bible was written before our neighbors lived so close," replied the mere man.—Philadelphia Record.

Light Up on Christmas Eve.

Some residents of Boston received the following announcement daintily printed in old English a few days before a recent Christmas:
"To All Whom It May Concern—Greeting: We again bespeak your good will and assistance in adding to the cheer of Christmas eve by placing lighted candles in the windows of your houses between 6 and 10 at night, to the end that the hearts of passersby may be gladdened and that the day of good will and glad tidings may be fittingly commemorated."

The response was more general than was expected. Scarcely a house of those to whom the appeal was addressed but had its candles arranged long before the hour appointed and promptly at 6 o'clock lighted up in a flare of Christmas light. The effect of good Christmas cheer and of welcome to the coming festival was charming. The custom will be observed hereafter.

BUY SEALS

TO AID WORK OF OHIO SOCIETY FOR TUBERCULOSIS PREVENTION

Thirty Thousand Have Been Received in Newark for Distribution Through Women's Clubs.

This year 30,000 Red Cross seals have been sent to Newark for distribution, and the work will again be done under the auspices of the City Federation of Women's clubs. Mrs. W. D. Fulton has had charge of the distribution, which was made to each of the local clubs affiliating with the Federation.

Already 20,000 stamps are placed on sale in the bookstores, the newspapers and next week, they will be sold in the dry goods stores, clothing stores, groceries and the postoffice. In the past years Newark has made a good showing in the sale of the seals, but it is hoped this year that the sale will be greatly increased. In 1910 Newark turned in \$23.84; in 1911, \$177.16; in 1912, \$22.82; in 1913, \$302.56; in 1914, \$206.75.

Of the proceeds for the sale, 80 per cent of the money collected is turned over to the Federation and as in the past will be devoted to the work of the visiting nurse, under the direction of the Visiting Nurse Chapter of The King's Daughters. The remaining 20 per cent goes to state work.

The National Association for the Study and Prevention of Tuberculosis is appointed as national agent of the American Red Cross society for the nationwide distribution of the seals. It maintains special headquarters in Washington, D. C., during the seal campaign. State agents are appointed by the national association in each state to take charge of the local seal campaign. In the state in 1913 the amount realized was \$28,388.92; and in 1914, the amount grew to \$41,252.70, which is indicative of the interest in the sale of the seals is growing.

The Nativity has found its best treatment in painting. The early painters dealt only with the fundamental theme—the Virgin, in humility and adoration and without the holy joy that the Christ Child had been born into the world, largely introduced by later artists; St. Joseph, gravely, wondering silent, the shepherds and the hymning angels. The chronology of the several events generally grouped under the subject of the Nativity has, of course, scant observance, as a rule, at the hands of the artists. The adoration of the Magi and the announcement to the shepherds are depicted on the same canvas. An altar piece now in the Metropolitan Art Museum, New York city, makes use of the simultaneous scene in its arrangement. The shepherds are hearing the message of the angels, and the kings come not, however, as commonly shown, with gifts of gold, frankincense and myrrh, but unattended.

New York, Dec. 11.—Further heavy-
ness was witnessed in the market in
the initial dealings, United States Steel
declining 1/2 to 3/4, on offerings of
large blocks. War shares like Baldwin
declined 1/2, on rumors of an early in-
crease in the dividend. Norfolk and
Western also was in demand and New
Hampshire Electric 1/2. Canadian Pacific,
which had been distinctly weak, made full
recovery and more. There was an in-
quiry for such specialties as General
Motors, Common and Preferred, Stud-
ebaker, Texas Company, Mercantile
Marine Preferred, all at substantial ad-
vances. United States Steel was heavy
at first, but moved forward with the
balance of the list in the closing was
strong. Bonds were irregular.

TWO CARLOADS
OF FOOD SENT TO
FIRE SWEEP TOWN

(Associated Press Telegram)

Petersburg, Va., December 11.—
While Hopewell was beginning to
rise from its ashes today, a commit-
tee of its citizens applied at Prince
George court house for a town
charter. Although the community
had a population estimated at 27-
000 before the disastrous fire on
Thursday it had never been incor-
porated. Governor Stuart had not
acted upon the request of the citi-
zens formulated at the mass meet-
ing until after a charter was granted.

Petersburg today was caring for
700 persons made destitute by the
fire and upwards of 10,000 were be-
ing fed at Hopewell by the Peters-
burg relief committee.
Two carloads of foodstuffs were
sent to Hopewell this morning. The
Virginia state bank resumed busi-
ness today in temporary quarters.
The authorities continue their in-
vestigation into the cause of the fire.
Reports that they were proceeding
on the theory that the fire was of
incendiary origin could not be con-
firmed.

EVANGELIST IS
DRAWING CROWDS
CENTRAL CHURCH.

One of the largest crowds that
have attended the revival campaign
now going on at the Central Church
of Christ, was present last night, and
heard Evangelist Roy L. Brown on
the subject, "What is the Church?"
The interest manifest was great, and
at the close of the service a lady ac-
cepted the gospel invitation. The
song service conducted by Song
Evangelist Leigh, assisted by R.
Leighton Brown, cornetist, was in-
spiring.

These meetings are now drawing
to a close, and the interest holds up
fine considering the season of the
year that takes so much time of the
people for other things. Sunday will
be another big day. It is hoped that
the Bible school will have a large
attendance.

At the morning hour the evangel-
ist will speak on "The Christian
Life." This is a sermon for the
whole membership, and it is hoped
that every member will try to be
present.

At 3 p. m. there will be a mass
meeting of men, women and chil-
dren in the church auditorium, and
Evangelist Brown will have for his
subject, "What Jesus Can Do for
Newark." This is a striking subject,
and is one of the most practical ad-
dresses that the evangelist delivers.

At 7 p. m. the subject will be "A
Century of Progress." This is a great
sermon, and every one should hear
it. This will be the last Sunday of
the meetings, and while the meet-
ings will run a few days longer, it

HOW TO HEAL SKIN-DISEASES

A Baltimore doctor suggests this simple, but reliable and inexpensive, home treatment for people suffering with eczema, ringworm, rashes and similar itching, burning skin troubles. At any reliable druggist's get a jar of resinol ointment and a cake of resinsol soap. These will cost a bit more than twenty-five cents. With the resinsol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage. If necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

A HINT FOR SHAVERS
If you want a refreshing shave, with a thick, creamy lather, the resinsol shaving stick, it contains the soothing, healing resinsol medication which makes it especially welcome to men with tender faces.

both afternoon and night. The afternoon will be given over to the Junior and Cade' classes, the night to Intermediate and Seniors. The program will be a joint affair with the Y. W. C. A. in the Y. M. C. A. gymnasium.

The bowling alley is in shape again and is being used by the members to good advantage. Mr. H. J. Dickerson has rolled the highest score.

Harold Kemp, who is east on a test trip with one of the new Jewett trucks, has remembered us with the message that he is having a splendid time.

The regular monthly meeting of the board of directors, which was to be held Thursday evening, was postponed on account of the absence from town of President Charles C. Metz, who is in Columbus as a Federal grand juror.

General Secretary Frank L. Johnson spent part of last Tuesday in Columbus on Association business. He met officials of the State Y. M. C. A. committee regarding matters pertaining to the state convention which will be held in Newark in February.

The Junior Boy's Bible class met for the first time this season on Tuesday night. There were twelve boys present. The class was taught by Physical Director Wilson Gallo-way. This class will meet every Tuesday night from now on.

The members of the Senior Gym class met Thursday evening in the dining room on the third floor, and had supper together. Ten young men were present and enjoyed a good repast and a pleasant social time together.

Y W C A NOTES

"Then let every heart keep Christmas within.
Christ's pity for sorrow, Christ's hatred of sin,
Christ's care for the weakest,
Christ's courage for right,
Christ's dread of the darkness,
Christ's love of the light."

The Y. W. C. A. girls, ready as always to help in any piece of community work, are to have a very happy part in the Community Christmas plans, under the direction of Mr. Hopkins and his committee.

The girls of the Industrial clubs will present the Christmas story in a pageant—a nativity tableau—copied from one of the old masterpieces in art. The committee in charge of it is most anxious for the usual splendid co-operation of the girls. Each club is planning to help extend good Christmas cheer through the Associated Charities committees.

The members of the gym classes are enjoying the freedom of more space available in Hickory Hall. There is more room to march, to play, to swing clubs and dumb bells, and are already beginning to grow and there is plenty of room now; there was not in our own little gym. Basket ball class began this week with a lot of enthusiastic girls on the teams. Boost the gym classes from now on and after the holiday rush is over we will have the biggest and best gymnasium department that the Newark Y. W. C. A. has ever had.

Wouldn't you like to have a piece of the president's fruit cake for your Christmas dinner? You may. The Christmas fruit cakes made by the domestic science classes are made from the same recipe, and there is no doubt that they are just as good. Try one and see.

The beautiful new Y. W. C. A. calendars make most acceptable Christmas gifts.

The Y. W. Bible class is to have a rare treat next Tuesday night. Mrs. Jones is to give one of her charming talks on "Christ in Art," showing her lovely pictures. All the class are urged to be present, and visitors will be welcome.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and indigestion and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside-bathing before breakfast.

Scientists discover the cause of bleeding gums and loose teeth

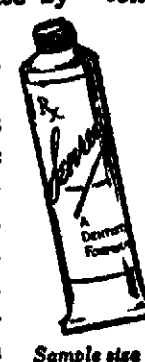

The old idea that bleeding gums and loose teeth (symptoms of pyorrhea) are due to little pieces of tartar or bone under the gums, has been exploded. Scientists have made the astounding discovery that this disease is caused by a germ which is found in every human mouth.

This germ is the most active and destructive enemy of your teeth. Are you protecting them against it? You can ward off its constant attack and escape the dread results of the disease by using the proper corrective and preventive treatment in your daily toilet.

To meet the need for this treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senreco Tooth Paste.

Senreco contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senreco also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senreco treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25c two oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senreco at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senreco Remedies Co., 506 Union Central Bldg., Cincinnati, Ohio.
